

# Danske Banks Headquarters

Copenhagen

Danske Bank

© Lundgaard & Tranberg Arkitekter

**Danske Bank's new headquarters will be located at the old post office property at Bernstorffsgade in Copenhagen and is a central feature in the new district.**

The new headquarters consists of two atrium buildings connected by a passageway elevated above the terraced landscape. The two buildings include offices, there will also be a banking museum, cafe and a bank.

The contract is carried out as a design and build contract, and the Aarsleff Group company Wicotec Kirkebjerg A/S will carry out the technical installations. Danica Pension is the client of the project, COWI is consulting engineer, and Lundgaard & Tranberg Arkitekter is consulting architect.

The project started in 2019 and is expected to be completed in 2023.

To the project, MAX FRANK delivers Stremaform® and SynkoFlex.
