Type of building:
Treatment plant

Building contractor:
Baraldo Construzioni Srl

Completion:
2016

Tubbox® Multi special circular column formers were used in the circular tank of a sewage plant in the municipality of Palazzolo sull'Oglio in northern Italy.

Tubbox® Multi special circular column formers for multiple use in new buildings and renovations. The circular column formers are distinguished by re-usability and represent an economical alternative to conventional column formwork.

Advantages of Tubbox® Multi:

- High economic efficiency because reusable
- High surface quality of the concrete
- Easy to cut on building site and easy stripping
- Custom diameters available in cm steps
- Low freight and storage volumes
- Use of release agents is not required
